

LUMINY AT A GLANCE

LUMINY CAMPUS OF SCIENCE AND TECHNOLOGY

DISCOVER MORE THAN 100 HECTARES, ON THE BORDERS OF THE CALANQUES NATIONAL PARK, DEDICATED TO HIGHER EDUCATION, RESEARCH AND BUSINESS...

Luminy is one of the Aix Marseille Université campus sites housing 2 faculties (Science and Science of Sport), 1 OSU (Observatory of the Sciences of the Universe), an engineering school (Polytech) and the Telecom&Network department of university institute of technology (IUT). Les Beaux-arts de Marseille-INSEAMM, National School of Architecture Marseille-ENSA•M and Kedge Business School complete the supply of higher education. The campus is also an academic research hub, home to internationally recognised laboratories. In addition, some 20 high-tech companies are based at Luminy. Moreover, it is a venue for sports and leisure activities that attracts thousands of students, scientists, local residents and tourists to its facilities, all sharing a common identity: 'Luminyan'.

"HEART OF CAMPUS"

Emblematic project of the program, a new "heart of campus", the Hexagon has opened in September 2018. It includes the University Library, international relationship service, places of exhibition and projection, the CIELL, the SUIO, the SUAPS, the LSSU, the CIPE and "student desk" as well as conference rooms, a coffee bar, work rooms for students and reception areas for student associations. The Hexagon team welcomes you and advises you on the use of these spaces.
