The Host institution commit themselves to getting the Student to respect security measures, in the institution itself as well as outside, and particularly during construction site visits.

ARTICLE 5: FINANCIAL COMPENSATION / SALARY

ARTICLE 6: INTERN’S HEALTH INSURANCE

To keep their health insurance abroad, the Student must ask for a health insurance card which is delivered to European students who do their internship in a European Union country.

Students having health expenses abroad can get their money back from their complementary health insurance which is also their social security centre: when they are back, they must present their health bills. The refund is then made on the basis of the price rates of French care (there can be considerable price differences).

Therefore, it is strongly recommended to sign a specific additional health insurance, which is valid for the country and the duration of the internship, by an institution of their choice (health cover for student institution, health cover for parents, private insurance company...).

The Host institution can supply a health cover to the intern, in virtue of local law.

Name of the insurance N° (of the student)

The Student commits to taking out an insurance contract (health/sanitary repatriation, legal aid) and an individual insurance accident contract.

ARTICLE 9: TERMINATION OF THE INTERNSHIP

The Host institution and the Student can terminate the internship before the date agreed in Article 3 within the framework defined by the Student's work contract if there is one (the need for a work contract will be determined by local legislation and rules), or within the requirements of the local law in the absence of a work contract.

The ENSA-Marseille would need to be informed of the termination of the internship if it is terminated before the end date agreed in Article 3 of this agreement.
